JOSIAH TURNER, Jr., EDITOR.

THE BEAUTIFUL LAND.

There's a beautiful land, by the spoiler untrod,
Unclouded by sorrow or pain,
It is lightened along by the presence of God,
Whose throne and temple are there;
Its crystaline streams, with a murmurous flow
Meander through valleys of green,
And its mountains of jasper are brighter in the glow
Of a splendor no mortal has seen.

And throngs of glad singers, with jubilant breath,
Make the air with their melodies rife;
And one known on e rth as the angel of death
Shines here as an angel of life;
An infinite tenderness beams from his eyes,
On his brow is a heavenly calm,
And his voice as it thrills through the depths of the skies,
Is as sweet as the seraphim's psalm.

Through the musical groves of this beautiful land
Walks the souls which were faithful to this,
And their pure white foreheads by zephyrs are fanned,
That evermore murmur of bliss;
They taste the rich fruitage that hangs from the trees
And breath the sweet odor of flowers,
More fragrant than ever were kissed by the breezes
In Arabia's loveliest bowers.

Old prophets whose words were a spirit flame
Blazing o'er the darkness of time,
And martyrs, whose courage no torture could tame,
Nor turn from their purposes sublime;
And saints and confessors, a numberless throng,
Who were loyal to truth and to right,
And left as they walked through the darkness of wrong,
Their foot-prints encircled with light.

And the dear little children who went to their rest,
Ere their lives had been sullied by sin,
While the angel of mourning still tarried a guest
The spirit's pure temple within—
All are there, all are there—in the beautiful land,
The land by the spoiler untrod,
And their radiant foreheads by breezes are fanned,
That blow from the gardens of God.

My soul has looked through the gateway of dreams,
On the city all paved with pure gold,
And heard the sweet flow of its murmurous streams,
And the green valleys they rolled;
And though it still waits on this desolate strand
A pilgrim, a stranger on earth,
Yet it knew, in that glimpse of the beautiful land
That it gazed on the home of its birth.

THEM GOOD OLD DAYS.

How I long (once in a while) for them good old daze.

Them daze when thar was more fun for 20 cents then thar is now in 7 dollars and a half.

Them daze when a man married 145 lbs. of woman, and less than 9 lbs. (awl told) of enything else.

How I dew long for them good old daze when stickashun consisted in what men did well.

Them daze when deacons were as austere as hoss redish, and ministers preached to men's souls instead of their pockets.

Them daze when politics was the exception and honasty the roole.

Them daze when lap dogs wunt known, and when brown bread and baked goose made a good dinner.

Them daze when a man who wasn't hizzy was watched, and when women spun yarn to knit stockings.

How I do long for the good old daze when now and then a gal baby was called *Jerusha* and a boy wasn't spiffi if he was named Jerrymier.

And ye who have the fethers and fuss of life, who have codfish of wealth without sense under yure nose, cum beneath this tree and long for an hour with me for the good daze when men were ashamed to be fools and wimmen were afraid to be flirts.

N. B.—Tha used to make milk punch in those daze that was handy to take.—*Josh Billings.*

MARK TWAIN ON BEN FRANKLIN.—What an adroit old adventurer the subject of this memoir! In order to get a chance to fly his kite on Sunday, he used to hang a key on the string and let on to be fishing for lightning.

He invented a stove that would smoke your head off in four hours by the clock. One can see the almost devilish satisfaction he took in it, by giving it his name.

He was always proud of telling how he entered Philadelphia, for the first time, with nothing in the world but two shillings in his pocket and four rolls of bread under his arm. But really, when you come to examine it critically, it was nothing. Anybody could have done it.

Franklin said in one of his inspired flights of malignity:

"Early to bed and early to rise,
Make a man healthy and wealthy and wise."

As if it were any object to a boy to be healthy and wealthy and wise on such terms. The sorrow that maxim has cost me, through my parents experimenting on me with it, tongue cannot tell. The legitimate result is my present state of general debility, indigence, and mental aberration. My parents used to have me up before nine o'clock in the morning, some times when I was a boy. If they had let me take my natural rest where would I have been now? Keeping store, no doubt, and respected by all.

Artemus Ward, in one of his letters, thus gave his idea of "reorganization":

I never attempted to reorganize my wife but once. I shall never attempt it again. I'd bin to a public dinner, and had allowed myself to be betrayed into drinkin' several people's healths; and wishin' to make 'em as robust as possible, I continued drinkin' their health until my own became affected. Consekens was, I presented myself at Betsey's bedside late at nite with considerable licker concealed about my person. I had somehow got persekshun of a hoss whip on my way home, and rememberin' some cranky observashun of Mrs. Ward's in the mornin', I snapt the whip putty lively and in a very loud voice I said:

"Betsey, you need reorganizin'. I have come, Betsey," I continued, crackin' the whip over the bed, "I have come to reorganize you!"

I dreamed that nite that somebody had laid a hoss whip over me sev'ril consekkootive times; and when I woke up I found like had. I haint drank much of anything since; and if I ever have another reorganizin' job on hand I shall let it out.

Jean Paul Richter says: "To insure modesty, I would advise the educating of the sexes together; for two boys will preserve twelve girls, or two girls twelve boys, innocent, amid winks, jokes, and impropriety, merely by that instinctive sense which is the forerunner of matured modesty. But I will guarantee nothing in a school where girls are alone together, and still less where boys are."

The *Woman's Journal* has this advice for girls: Never marry a man whose manner, or speech, or principle hints at the idea that he is to be the "master" of his wife.—A "master," who is an employer, you can quit on due notice, and try another—but quitting a husband, even for reasons that earth and heaven will justify, is serious and disastrous business. Marry a husband—not a "master."

DESIRABLE PROPERTY.
I WILL SELL OR EXCHANGE FOR GOOD City property one of the best Cotton and Grain Farms in Eastern North Carolina. The tract of land contains about twenty-two hundred acres, of which seven hundred acres are cleared, under fence and in good condition for cultivation. A large part of it is in cultivation this year. The soil is fertile, neighborhood good, water cheap and plentiful. The dwelling house is large and commodious, with all necessary and convenient outhouses. The Stables, Barns, Houses for laborers &c. are good and numerous. This farm lies immediately on navigable water, and has passing through it good water power, where there is now a Grist and Saw Mill and Cotton Gin. The place is desirable for conducting large Mercantile operations, and is a beautiful location for a town or colony. A Steamer passes every day, and touches at the wharf two hundred yards in front of the dwelling. The surrounding county is rich and improving, and settled by intelligent, refined and prosperous people. Address

U. S. SENATOR.

The names of a number of the distinguished men of the State have been suggested for U. S. Senator in place of Gen. Abbott. We wish it distinctly understood that the SENTINEL has expressed no preference for any one of our prominent men over another, nor has it any choice. We prefer having this whole matter to the enlightened judgment of the General Assembly, believing that its selection, whoever it may be, will entirely satisfy the people of North Carolina, represented by a majority of that body.

We beg leave respectfully to suggest to all our friends that hereafter, the suggestions of those who write upon the subject for our columns, must be limited to the simple presentation of the writer's choice, without contrasting the relative merits of others with that choice. The newspaper is not a proper medium for the discussion of the peculiar merits of this or the other gentleman *in opposition to the claims of others*. Such discussions should be left entirely with the Conservative and Democratic members of the General Assembly, when they meet in consultation upon that special subject, after the body convenes.

Relying upon the good sense of the writers, we have admitted two articles, one signed "Citizen," and the other a "Citizen of Yancy," without scrutinizing their positions critically, before placing them in the hand of the compositor, both of which departed from the safe rule suggested above.

It is of the highest importance to the interests of the State and to the future success of the party opposed to Radicalism, that there shall be perfect harmony in all that the majority in the General Assembly shall do, whether in the selection of gentlemen to fill public offices, or in the abrogation of laws on the statute book, or the adoption of new laws or new measures.—Any thing therefore, which may tend to produce division or discord, should be carefully avoided.

Whether the General Assembly shall select a U. S. Senator from that class of distinguished gentlemen who are *banned*, or from those whose disabilities have been removed, may therefore we think, be safely left to the intelligent decision of the General Assembly itself, after it convenes, without any previous discussion of the matter, since it is evident that any discussion *pro or con*, will produce discord.

As we have admitted two articles insisting upon the selection of gentlemen for the U. S. Senate entirely upon their personal claims, without reference to their being banned or not, we admit to-day the criticism of a "Citizen of Catawba" upon the article of a "Citizen of Yancy," hoping that here the discussion will terminate.

THE FATE OF FRANCE.

In view of the present condition of affairs in France and its surroundings, there is much speculation as to the probable results of the seige of Paris and the war.

In a few days, perhaps, the results of the diplomatic conferences between the Russian, Austrian, English and Italian governments with those of Prussia and France will be known. In the mean time, we think, Prussia will do but little, except to prepare for the seige, until the decision of the conference has been determined. The further movements of the Prussian army will depend upon that decision.

We should rejoice if the *situation* justified us in the belief that France can maintain the Republic and establish its claims to the confidence of Europe, but the surroundings, apart from the character of the French people itself, warrant no such conclusion.

There are two pregnant facts which warrant the intense anxiety now manifested by all the crowned heads of Europe in the results of the Prussian French war. The prospect of the early solidarity of the Germanic Empire, if King William is let alone, and that he and his successors must thereafter control the destinies of Europe, is certain. Such a result of the war, all Europe has good reasons to prevent if possible. The early conquest of Austria, Denmark, Belgium and Holland, of a portion of France and of Polish Russia and their absorption in the German Empire would only be a matter of time. Indeed there is no telling to what dimensions such a great power would grow. Hence Russia, Austria, England and Italy are immediately interested in stopping the war before Bismarck's purpose of absorbing the whole of Germany under the control of King William shall have been so far accomplished as to render it impossible to check it. The second fact is, that the probable establishment of a Republic in France would rend every throne in Europe unsafe, forms an imperious reason why no settlement looking to this object, can possibly receive the sanction of any of the present crowned heads of Europe; and possessing now the power to crush it, we feel confident it will be done, even at the risk of the annihilation of France itself. The republic of France as a vitalized, acknowledged power of Europe, can never exist only in the imaginations of its fickle people, until Europe itself is regenerated; and until the "model Republic" the United States gives the world stronger proof of its being "the best government in the world."

THE PUBLIC SCHOOLS.

"Better late than never" to do good is a trite but true saying. Great anxiety has prevailed among the people of the State as to the fate of our public schools. Under our old regime even up to the close of the late war, Mr. Superintendent Wiley carried on the public schools without hinderance, giving the rudiments of an education for three, six and twelve months in the year to about 125,000 children. His salary was $1,500 and the annual expense all told, except to pay off teachers, scarcely exceed $3,000.

The Radical party has been in power over two years; quite a large amount has been collected for public schools, and a large portion of this has been expended for other purposes than for the payment of teachers. Indeed scarcely any schools have been put in operation and some of the few that have been, we learn, were disbanded because the Superintendent refused to pay the teachers after teaching three months, because the law required that the schools shall be taught at least four months at a time.

We are now told that the schools will be generally put in operation after the 1st of October, but we fear that the whole scheme as provided for by the Radicals is an impracticable affair, and must be entirely revised and modified, before much practical good can be effected. We apprehend without looking into it with any care, that the system is planned upon the general carpet-bag idea which prevailed in the entire reorganization of the State, that the State was a great, wealthy State, in which none but wealthy people lived, and that money was as plentiful as the leaves of the trees. The system we apprehend might suit Ohio or New York, but must be modified and adapted to North Carolina before it can work. Mr. Ashley to whom the matter has been simply left, could not project a scheme to meet the wants and condition of North Carolina, for the reason that he knew nothing about it, and hence was unfit for the place.

THE KU KLUX AGAIN.

The Radicals are still disturbed about Ku Klux. They think it passing strange that Gov. Holden should be blamed for his efforts to put down the Ku Klux and thus protect life and property. It is a perversion of the truth to state the question thus. No one can blame Governor Holden for using lawful efforts to put down crime of any sort, committed by any class, or for the protection of life and property.

Gov. Holden was blamed first, for remaining silent and oblivious of all the crimes committed by Loyal Leaguers and Radicals, and taking no steps to arrest them, and when the guilty parties in some few cases were detected, arrested, tried and condemned, Gov. Holden outraged all propriety by remitting the punishment altogether or in part.

The County of Robeson has been the scene of more lawlessness for the last two years than any County in the State. There are armed bands of desperadoes, black and white in that County, which have been a terror to the people, during his whole term of service. They have been guilty of burglary, arson, murders and thefts innumerable—attacked the premises of defenceless women and men at night, robbing and otherwise mistreating them. And yet what has Gov. Holden done to put a stop to crime in Robeson County? What has he done to arrest the murderers of the McLeods? What did he do at any time to stop the barn-burning, burglaries and rapes, all committed by Loyal Leaguers and blacks? Did he ever manifest any concern about crime in the State, until he thought he could make political capital out of a Ku Klux furor? Who ever heard that Gov. Holden felt any concern whatever at the barn-burnings in Granville, Caswell, Orange and Alamance, or the rapes and thefts of the Leaguers in Chatham, Harnett and other Counties? No one.

Gov. Holden is blamed secondly, for his *lawless* efforts to suppress Ku Kluxism. The provisions of the law were ample to have arrested them by civil process. He has not gotten hold of a single fact by his lawless employment of Kirk's and Clarke's State Troops, which he could not have reached by a Bench warrant at the outset. After all the threats, hangings, menaces and cruelties employed by Kirk and Burgin, Holden is in possession of no truth which he could not have better obtained otherwise. His whole military movement was not only lawless, and terminated in failure, but it was not gotten up to put down Ku Klux and expose crime, but to carry the August elections by the bayonet. And the people defeated it by their quiet and determination.

GOOD.—The following was handed us about the time the late election returns were coming in, but the fool laid it by till the right time to insert it came and forgot it. It was copied from an old Raleigh *Register* and was probably an *impromptu* from the pen of its excellent editor, the late Western R. Gales of precious memory, upon some Whig victory in old times. But it was never more appropriate than when the returns were coming in from the late election:

Whar did you come from, stranger, quickly tell;
Whar did you come from, you look so mighty well?
I come from the Old North State, where the people can't be bought,
And we've played 'em a fuse called "the cover second thought;"
And that's whar I come from!

Gov. Holden, as in duty bound, has issued certificates of election to Judge Gilliam and Col. S. H. Rogers, the former to supply the vacancy of Dewesse in the present Congress and the latter for the 42d Congress, from the 4th Congressional District.

For the Sentinel.

MR. EDITOR: The communication from a "Citizen of Yancey" is so extremely radical, unreasonable and absurd, that it hardly merits the endorsement of the *writer* himself; and I am disposed to think in all charity to his metyphysical refinements, that had he taken a calm survey of the field and the propriety of the subject upon which he has imposed (unconsciously as it were) so learned a dissertation, he would have pursued a different course, and left the matter entirely with the Legislature, where it properly belongs.

Without reading your comments in connection with the publication of his communication, my first conclusion was that a "Citizen of Yancey" was a *shrewd, clever Rad*, and that he was thus ingeniously working in the interest of his party. I am forced under the circumstances to slightly alter my opinion; and by doing so I do not repudiate my first conviction in toto, but only so far as to dissociate him from what we understand to be the Red String, Loyal League party under Holden, Littlefield & Co., which is now *functus officio* in North Carolina.

The substance of the communication justifies one deduction, at least; that it is the duty of the Legislature as soon as it assembles in Raleigh, to elect a man to the United States Senate, whom "they have the assurance from Congress," will not be permitted to take his seat, by reason of his political disabilities under the 14th amendment; and the further assurance, if the Louisiana case can be regarded as authority, that the minority candidate will be declared elected. In the face of these assurances I cannot imagine a more suicidal policy, and such suggestions really seem to be the result of some morbid delusion, rather than the outspoken honesty of a conscientious *Conservative*. Elect a distinguished gentleman simply for the glory of the thing, and if Congress refuses to admit him, it is not our fault; and if he is not admitted we have the consolation of knowing that *we elected* him, and that a "great State by her legally constituted authority has fixed her seal of condemnation on the odious discriminative policy of the Radical party."!! Another reason urged by our "Yancey" friend is, that by pursuing a course of this kind, we avoid the imputation of endorsing an "odious discriminative policy" such as is advocated by Mr. Cowan and others. This "odious discriminative policy" is to elect a man not laboring under *political disabilities*. Our "Yancey" friend says, those who endorse such a monstrous policy are *Radicals*. He says Congress will soon pass a general *amnesty bill*, and then all such objections as political disabilities will be removed, and should this not occur, *who* would not rather see one of our prominent men knocking for entrance at the door of the U. S. Senate *for six years* than to have some political adventurer in his seat by the side of John Pool!! Does the deluded man mean that only *political adventurers* in North Carolina have had their disabilities removed by the action of Congress? or that the removal of such disabilities was accomplished through such agencies only as Dewesse & Co.? Does he mean that such political weather cocks as Clingman, Badger & Co. are the only men to represent North Carolina in the United States Senate outside of those who are banned? or is it simply the out-cropping of a diseased brain—or a political monomaniam?

I fully agree with "Yancey" if such a man as Clingman, Badger or Phillips is to represent North Carolina in the U. S. Senate, I would prefer to have none, because I think it would be infinitely better to be *unrepresented* than *misrepresented*. But this by no means follows. Whilst a great number of our distinguished men are laboring under disabilities, "which no sane man can even attempt to justify," yet there are others from whom this objection has been removed that can ably and honorably represent North Carolina in the U. S. Senate. Judge Mitchell of Iredell, Col. L. M. McCorkle of Catawba, Col. W. A. Allen of Duplin, Judge Merrimon of Buncombe, now of Raleigh, Gen. M. W. Ransom of Northampton, Judge Barnes of Hertford, Judge Gilliam of Granville, Judge Warren of Beaufort, Judge Fowle of Wake, Col. Dargan of Anson, and others that could be mentioned, any of whom would be an honor to their native State. I will close by saying to "Yancey" that he has overshot the mark, and that *justice* can be done North Carolina, and, in the dying language of the *moral power* of the Judiciary of North Carolina, "the heavens can stand."

CITIZEN OF CATAWBA.

Victor Hugo has written an address to the Germans, of which the following is an extract:

"You may take the fortress, you will find the rampart; you may take the rampart, you will find barricades; you may take the barricades, and then who knows the resources of patriotism in distress? You will find the sewers mines of powder ready to blow whole streets into the air.

"This will be the terrible sentence: You must expect to take Paris stone by stone; to slaughter Europe on the spot; to kill France by detail—in each street, in each house. That great light must be extinguished soul by soul. Germans, think awhile before her walls. All transformations are possible for her. Her indolence gives you the measure of her enemy. She seems to sleep. She will awake. Her thought will leap from its scabbard like a sword, and this city which yesterday was Sybaris to morrow may be Saragossa."

Now that Holden, Governor of North Carolina, is down, his "pets" shoot out the lip and heave up the leg against him. Grant, who backed him with United States artillery before election, has never a kind word now for his beaten ally; Greeley has lectured him into *rabies*; and now comes a small parasite, Stephen A. Douglas, a degenerate son of the Little Giant, to resign into the hands of his fallen chief the commission of colonel and aide he was once proud to hold. The man is a bad man, scouted, desperate, lawless, and deserves his fall, but it is a base thing, for all that, for his late cronies to kick him now he's down.—*N. Y. World.*

Republicanism in Spain has received a vast impetus from late French movements. When the Cortes meets on the 25th instant, it is expected that some decisive steps, looking to the formation of a Republic, will be taken. General Prim is calling troops to Madrid in order to awe the Deputies.—But it is not certain he can depend upon the military. He cheated them in the late revolution, and they are not disposed to trust him for another movement, especially when it is a backward one.

The Pope has completed his arrangements for retiring from Rome upon the arrival of the Italian army of occupation. He will go to his summer place at Castel Gandolfo. This village is about fourteen miles southeast of Rome, and is picturesquely situated on a volcanic peak 431 feet above a beautiful lake. The spot is one of the loveliest in Italy. The latest dispatches show that the question whether the King of Italy or the Pope shall be the civil ruler of the people in the present papal territory is to be determined by an election, the Italian troops meantime having possession, and the purpose is professed of protecting the Pope in his ecclesiastic rights.

GERMAN IDEAS.

The New York papers copy from L'Univers, an ultramontane Catholic organ, a bucket letter from a German correspondent, which reads as follows:

DIJON, August 21.

Within a fortnight there will be a social revolution in Paris. The red republic will be installed and established by the complicity of Germany. There is need of new September massacres. Proprietors, capitalists, priests, the rich and solid party of the population, must be crushed; they cramp foreign projects. The red republic will operate the division and dissolution of the French forces, and will lay open the heart of France.

To force the gates 300,000 Germans are ready at the call of Prussia; they will plunge without hesitation upon Paris. You have only the semblance of an army; it will be destroyed. It is high time to chastise France, to pull down that vanity and proud pretence of governing Europe. The French are fools, ignoramuses, a people embruted by prosperity. They must yield place to others with better title. It is of right that the one only intelligent and powerful nation, which bears aloft the torch of reason by her science and her education, as also the sword by her corporeal vigor, it is of right that the German nation should govern the world! It is the spirit of God that animates her.

It is time also that this Latin race, and this Catholic religion, whose bases and principles, worn out and fallen into discredit, infect and gangrene the world, should be obliterated to give place to reason. God has chosen this German race and this King William to accomplish this triumphant work. He wants to give to Europe the greatest power to accomplish his designs.

The empire of Germany must be reconstituted. But to attain these vast ends we want money. France alone possesses enough; she is the treasure chest of Europe. You have in your bank fifteen hundred millions waiting our order. We shall impose upon you seven thousand millions more, payable at short dates. And, when we leave you, we mean to retain Alsace and Lorraine. A vast empire cannot be truly great without a great marine to rule the seas. We shall take Denmark and Holland. We will be masters in the Baltic. Then absorbing Austria we will control the Adriatic. In order to get to the Mediterranean we shall bring Italy under subjection—she is only a slave. There the Pope reigns, that antiquated idol that embrutes and fanaticises populations, and prevents the reign of reason. Then at last the German nation will hold the rank to which she aspires, and of which she is worthy.

THE LOUISVILLE, GA., NEGRO INSURRECTIONISTS.—We stated some time since that Cudjo Fye, the leader of the Jefferson county insurrectionists, declared he was backed by Bullock in his unlawful and incendiary conduct. In corroboration of that statement, we find the following in a Louisville letter to the *Chronicle and Sentinel*, dated September 7th.

Richard Roberson, (one of the rioters) in his remarks or confession, declared that Cudjo Fye, who was the head of all their clubs, openly stated to his meeting that he had seen Governor Bullock, and that he was acting altogether by his orders, and of course he would protect them in what they were doing. Roberson further said had he not believed that he was acting under the Governor's orders that he never would have joined or aided in the insurrection.—*Telegraph and Messenger.*

LIFE (OR DEATH) IN MEMPHIS.—The Louisville *Courier Journal* is responsible for the following:

You never hear of a suicide in Memphis. When a man there gets tired of living, he doesn't have to walk more than one or two squares before he stumbles over somebody who is anxious to kill him. It is much the better plan. It spares the one man the crime of self-slaughter, and affords the other what they call down there an innocent gratification.

VERMONT.—The gains for the Democracy in Vermont are significant of the change in public sentiment even in that State. The Rutland *Courier* says: "The Republican majority in the State, instead of being over 30,000 as claimed, will not be more than 20,000. The Democrats have gained about 20 members in the House and one in the Senate. Willard, for Congress, in 55 towns heard from, has only a majority of about 2,400. Well done, Vermont."

The Jewish *Messenger* says: "While our brethren of the press are rejoicing over the fall of the Bonaparte dynasty, and decrying the captive Emperor as an usurper, tyrant, &c., we have simply this to offer in regard to him—that he always cheerfully carried out the liberal laws of France in reference to religious equality. The Jews had in him a sincere friend and a generous advocate!"

THE AGRICULTURAL CONGRESS.—This body is to meet at Augusta, Ga., on the 26th of October. The object is to take action to more successfully promote the agricultural interests of the Southern States. A large number of delegates have already been appointed.

THE DROUGHT IN VIRGINIA.—The complaint is general from Eastern Virginia, and especially from the tidewater region, of excessive drought. Around Richmond the gardens are burnt up, and fall vegetables have almost disappeared from market.

THE MOST VIGOROUS AND PROGRESSIVE COMPANY IN THE WORLD.

The Equitable
LIFE ASSURANCE SOCIETY
OF THE
UNITED STATES
120 BROADWAY, NEW YORK.

BURROUGHS & SPRINGS,
GENERAL AGENTS,
CHARLOTTE, N. C.

TWENTY-SIX REASONS FOR PREFERRING THIS COMPANY TO ALL OTHERS.
1. Its cash assets are upwards of $13,000,000.00 and constantly increasing.
2. None of this is made up of promissory notes as in many Companies.
3. Its cash income per annum is over $6,500,000.00 and steadily growing larger.
4. None of this is composed of the notes-of-hand of policy-holders, as the case in many companies.
5. It has paid to widows and orphans, and other claimants under policies on deceased members, about $4,000,000.
6. Such payments are made in cash, and not partly in cancelled notes, as in the case in many companies.
7. No deductions are made from the face of a policy for premium notes when it becomes a claim, as is the case in all Note Companies.
8. The sum of $3,500,000, and upwards, in cash divided among policy-holders, (this included in dividend for the present year) as profits of the business.
9. All the profits of the business are annually divided among the assured Equitably, instead of being wholly or partially distributed among the stockholders, as is the case in all "Mixed" and "Proprietary" Companies.
10. Dividends are invariably available as cash in payment of premiums.
11. The dividends are made from the start, and not postponed until after the lapse of seven years, as in many Companies.
14. The Society deals Equitably with its policy-holders.
13. The Equitable has made more progress since its organization than any other Life Company in the world.
14. Its risks have been so carefully selected and its dealing so equitable, that it has never been obliged to contest the payment of a claim at law.
15. Its modes of applying dividends are more numerous and more advantageous than those of any other company in the world.
16. It issues all the popular styles of policy, including "Ten Year Non-Forfeiting" and "Endowment policies."
17. The amount of new business during the year ending "December, 1 1869, was $51,[illegible].
18. Its policies average larger in amount than those of any other company, showing that capitalists select the Equitable for purposes of investment.
19. The profits of the business are apportioned to the assured on the "Contribution Plan" which is conceded to be the only equitable mode of division, and not by the mode adopted by many companies, which is grossly unjust to a large proportion of the policy-holders.
20. It is as liberal in the conduct of its business as is consistent with safety to the assured, but does not sacrifice proper caution to an ambition to increase the nominal amount of its business, as is the case with many new companies.
21. It employs the best medical talent for examination of applicants, and writes policies only on the very best lives, thus keeping the mortality among its assured far below the average.
22. Policies in this company may become *self-sustaining*, by the operation of dividends, after comparatively short term of years.
23. Policies in this company, by the application of dividends in the appropriate method, constantly increase in amount, without increase of premium, until after the lapse of a term of years, it is expected they will be at least doubled.
24. Loans in this company are promptly paid, and information always given without delay to the interested parties.
25. It combines all the advantages of all other companies, without any of their objectionable features.
26. It is the favorite company in the United States, as is shown by its new business for last year being nearly $13,000,000 greater than any other company.

Hester's millinery opening yesterday was a decided success. The ladies were charmed.

MASONIC.—A called meeting of Enoch Council No. 5, Royal and Select Masters, will be held at Masonic Hall this evening at 7 o'clock.

All R. and L. Masters are fraternally invited.

THE FAIR.—Our Temperance friends have cause to congratulate themselves upon the flattering success of their Fair. We understand that receipts thus far exceed the most sanguine expectation.

The grand feature on Wednesday evening was the contest between the different Fire Companies of this city, for a splendid speaking trumpet offered by the Council to the Company receiving the largest number of votes—the purchase of an admission ticket giving the right to vote.

The result of the ballot was announced about 11 o'clock as standing as follows: Rescue Steam Fire Engine, No. 1, 268; No. 2, 212; Hook and Ladder, 29. This result was received with much enthusiasm.

We are glad to be able to chronicle the the success of the originators of this festival, for setting every other consideration aside, the cause in which they are working eminently entitles them to the encouragement of a virtuous public.

ALL QUIET.—The Police on Wednesday night had an easy time of it, as not a single arrest was made, everybody seeming to be on good behavior. We hope that this state of affairs will continue so that soon we may claim to be the most moral and orderly city in the State.

AN OVERSHOT.—In alluding to the various improvements now going on in our midst, we neglected to mention that the commodious and substantial brick store, erected by Ruffin Williams, Esq. just in rear of his residence on Martin Street, has nearly reached completion. It is a sign that we have entered upon an era of prosperity, when our leading business men evince such a spirit of energy and enterprise.

STEPHEN WORTH.—We regret to learn that Stephen Worth, the faithful servant and friend of the late Ex Gov. Worth, who has been of late employed as a drayman, was attacked with paralysis on the street on Wednesday last and fell. He was carried home and doubts are entertained of his recovery.

PERSONAL.—Rev. J. V. McNamara, pastor of the Catholic Church, in this city, has returned to his charge after a protracted absence caused by the transaction of important business matters connected with his duties.

COMING ON.—With the cold weather, comes, we suppose, our old friend with two names—Tom and Jerry. Boys better be ware.

DRY.—Sunday in this burg is a dry time to some folks. The Maine liquor law aint a circumstance. Neither love, money nor anything else, will induce any of our law-abiding dispensers of alcoholic concoctions, to violate the strict ordinance, securely adopted by the city authorities, prohibiting an indulgence of carnival propensities on the Sabbath.

The Wilmington *Journal* must be joking or deaf, not to have heard of the propositions of its city Steam Fire Engine Co. to squirt water at our State Fair against any other competitor. We heard it without going from home, but thought it a hard story, not knowing where the water was to come from on the Fair grounds.

NOT TO BE DELUDED.—The hues imparted to gray heads by PHALON'S VITALIA, OR SALVATION FOR THE HAIR, are as vivid as those of nature, and the change is not effected by a disregard of cleanliness, as is the case with the other hair coloring preparations, the VITALIA being eminently clean. No sediment. Sold by all druggists and fancy goods dealers.

Trust what Time has Sanctioned.

The maxim that the voice of the people is the voice of the divinity, may in some cases, be open to doubt, but the testimony of honest and enlightened witnesses extending through a series of years, and all to the same purport is worthy of credence, admits of no question. Upon such testimony the reputation of Hostetter's Stomach Bitters as an antidote and cure for many ailments is based. During the twenty years that it has been before the world innumerable preparations intended to compete with it, have gone up like rockets, and come down the extinguished sticks. Meanwhile the progress of that incomparable tonic has been swift and steady—always upward and onward like the eagle's flight. Its introduction produced a revolution in therapeutics and it proved to be one of those salutary revolutions that cannot go backwards. To-day Hostetter's Bitters is one of the most popular remedies in christendom, and commands a larger sale than any other medicinal preparation, domestic or imported, on this side of the Atlantic. As a cure for dyspepsia, bilious disorders, nervous affections, general debility, and as a preventive of epidemic fevers, it takes precedence of every other remedy. This fact should teach the ambitious country dealers who endeavor to foist their local abortions on the public in its stead, how futile their small attempts to cajole the community must necessarily be. Where the game fish have failed there is no chance for the "suckers."

A TALE THAT'S WORTH'N.—

The war who edits that clever weekly the Asheville *Citizen*, gets off the following upon Littlefield & Co. Littlefield's operations are generally on a large scale, and the *Citizen*, we suppose, thinks it will try to keep in sight of him.

W. N. RAILROAD.—There is a rumor in town, that Gen. Littlefield has succeeded in making sale of the Florida bonds belonging to the above road at a tall figure, and has undertaken, with King William of Prussia, to build a magnificent air line, 25 feet wide, double track railroad from Sedan to Berlin, for the purpose of conveying the French prisoners, spoils, &c., to the Prussian seat of government; and for this grand and almost superhuman undertaking he is to receive for the benefit of our road the title of "Prince Milton," an annuity of $25,000, and a stately headquarters on the poetic Rhine, with one hundred puncheons of wine seventy five years old. This news, like all other news from Europe, must be received with a good deal of allowance, and our advice is not to feel too good about it till we have more evidence of its certainty. A dispatch is hourly looked for from Mr. Woodfin confirming or contradicting this rumor, for in that light only can we receive it.

A "Democrat" suggests the name of our highly esteemed townsman, Maj. SEATON GALES, as a suitable candidate for the U. S. Senate. The article of our correspondent "Democrat," rather intrudes upon the rule we have laid down in another article, and therefore is excluded. The good things he says of Maj. Gales we endorse, but it was not necessary to go any further. We hope that all who desire to name favorites, will simply do so, without making comparisons.

DeHaven's circus is soon to "astonish the natives" at Weldon.

Weldon wants a ferry in order to establish direct communication with Northampton.

The taxes assessed upon Halifax county this year amounts to some $22,000.

There are twice the number of distilleries in operation in the Roanoke section this year than were worked last year.

Caught—A bad cold.

Cotton exports from the city of Wilmington for the year ending Aug. 31st, together with the stock on hand Sept. 1st, 1870, foot up 57,855. For the same period last year the exports and stock on hand amounted to 36,160 bales.

A post office has been established at South Washington, N. C.

The corner stone of the Catholic church was laid in Asheville on last Sunday.

Jones Church, a young man from this State, was mysteriously murdered in Jonesboro', Tennessee, a short time ago.

There are 32 prisoners in the New Hanover county jail awaiting trial at the next term of the Superior Court. Of this number four are colored females. There are only three whites—all males.

BRIEF.—Coal and wood dealers are now driving a brisk trade, as families are beginning to lay in their winter supplies.

A small boat, containing two colored men, was capsized in the river at Wilmington on Tuesday. The men managed to get on the bottom of the boat where they remained until rescued.

The Wilmington *Journal* says there seems to be something of a fatality about the waters of the Cape Fear, so many persons having been drowned in them during the past few months.

COTTON AND RICE CROP.—The Charleston *Courier*, in its annual statement of the crops for the year ending August 1, 1870, puts down the North Carolina cotton crop at 57,855 bales against 36,640 in 1868. It underestimates the N. C. cotton crop one-half, if not more.

It also estimates the Rice crop at 1,200 tierces against 2,000 in 1869.

Among the patents recently issued from the Patent Office at Washington, is one to Mr. L. Henderson, of Manson, N. C., for a potatoe digger, and another to Mr. Grey Utley, of Charlotte, for an improvement on his hay and cotton press.

J. J. Goodwin, the Radical Sheriff elect of Halifax county, being unable to give the bond, the office was declared vacant by the Board of Commissioners and Jno. A. Reid, the old Sheriff, was appointed to fill the vacancy.

The Editor of the Rutherford *Star* has the impertinence to say, he wants money. Until an editor learns to live without money, he is hardly an acceptable member of the honorable fraternity.

Trains on the Wilmington, Charlotte and Rutherford Railroad, will probably cross the bridge over the Pee Dee River the latter part of this week.

The proposition is being mooted to form a new State out of portions of Western North Carolina, East Tennessee and South-Western Virginia.

The measure is favored by the Jefferson *Times*, Asheville *Pioneer* and the Rutherford *Star*; all Radical papers. *We are opposed to it*, out and out.

CROPS.—A gentleman who has just returned from Guilford, Stokes and Rockingham Counties informs us that the tobacco and corn crops are very fine. He says the tobacco crop is unusually heavy. Every one is putting up new barns. The crop has commenced ripening two weeks earlier than usual.

Boyles of the Mt. Airy *News* says, that he printed election tickets for Surry and adjoining Counties and has only received $3 for it. He seems to be surprised at this. If he continues to be a printer until the next election, if he prints for four surrounding counties before he gets the cash, his bill will hardly be worth 3 cts. The only chance for a printer, is to make every one plank down the cash.

The entire expenses of the County Commissioners of Warren County for the year ending 1st Sept. was only $585 90. This will compare very well with Wake and other Counties. One or two sensible, honest Conservatives in a Board of Commissioners in a Radical County, helps wonderfully in the prevention of waste and steal-age.

A CARD.

MR. L. G. ESTES late U. S. Internal Revenue Collector 2nd Dist. N. C. purchased of us in the Spring of 1869 a fine Gold Watch, and under date of June 1869 writes thus: "*It was a present to the Speaker of the House of Representatives of which I am a member.*" This Watch is still unpaid for; and though we wrote Estes repeatedly—he paid no attention whatever to our letters, leaving us but one inference, that he did not intend to pay for it.

Estes in a published "Card" says he bought of us goods amounting in value to over $1,000 but even were this so (and we feel assured it is not)—it has nothing to do with the case. Estes claims further to have paid in part; but his remittance was cancelled by a PREVIOUS INDEBTEDNESS for a breast pin,—*leaving the watch still unpaid for.*

With the personally abusive part of Mr. Estes "Card" we have only to say that it is wholly false as to the asserted fact. No other notice is necessary from gentlemen, of abuse of which no gentleman could be guilty.

TELEGRAPHIC.

Thursday Evening Dispatches.

ILLINOIS.

CHICAGO, Sept. 13.—The Democrats nominated W. B. Anderson as the Congressional candidate at large, and Charles Ridgely as State Treasurer. Ignatius Donnelly will run for Congress in the St. Paul District as Mugwumps, provided the Democrats make no nomination. Donnelly will run on the free trade platform.

FOREIGN.

LONDON, Sept. 13.—Not having recognized the Republic, Thiers is not received at Downing Street. During the interview at the French Embassy, Granville in replying to Thiers' propositions said: "I do not see how England can interfere, but I think I may say that, while preserving a strict neutrality, England will present to Prussia any propositions offered by France, and will act the part of a sincere friend. It cannot, however be expected that England will join any Power in uttering a threat to Prussia, nor can England positively promise to urge upon Prussia the acceptance of any offer which France may be disposed to make her.

There is intense excitement to hear from Rome. The blockade of Ancona has been raised and vessels now pass freely.

Communication between Paris and Lyons has been destroyed by the Prussians at Montreau, sixteen miles south-east of Melun. A short skirmish occurred there. Firing is heard at Paris. All the bridges within reach, have been destroyed by the French, on the Lyons road.

Italian unity seems to be accomplished. The sympathy of the people seems almost entirely with the Italians.

The Papal garrison at Montalto was captured. An Italian division should now be before, if not in Rome. Civita Vechia has declared for Italian unity. The inhabitants of Bracciano displayed Italian flags upon the approach of the Italian troops. Civita Vecchia is seventeen miles northwest of Rome.]

The Bank rate has been reduced to 3 per cent.

The *Nord* contains a letter from Berlin, giving the views of the Prussian Government. Prussia will negotiate with the present French Government. Prussia proposes to occupy Paris; the Regency, Senate and Corps Legislatif will then be reassembled. A reformed Government will name Commissioners to negotiate for peace. When this treaty is signed, Napoleon will release and end France left free to choose a Government.

BERLIN, Sept. 13.—The Provisional Government of Paris would have been recognized by the Prussians had Prussian elections been accepted, ensuring the cession of Alsace and Lorraine, and the dismantling of the frontier forts. The Provisional Government refused to listen to any proposition surrendering French Territory.

MADRID, Sept. 13.—Olozaga, the Spanish Minister at Paris, has been recalled. His offence being the recognition of the French Republic.—This is in violation of the treaty, whereby Spain is bound to wait the action of other Powers.

WASHINGTON, Sept. 15.—Cox will be absent for three weeks.

FOREIGN.

MADRID, Sept. 15.—Rivero is sick; his resignation is expected. Rodriquez will probably succeed him.

CONSTANTINOPLE, Sept. 15.—The Sultan has withdrawn his opposition to the Khedive's bank.

PARIS, Sept 15.—The French troops who entered Baden territory, will remain to operate on German soil. Reinforcements have been sent to them. Trochu's address to the Gardes Nationale, and the result of the review, are very gratifying. It is assured that the defence of the city will be admirably maintained. Paris is ready to sacrifice all in order to give France time to organize for an irresistable defence. Last night Parisians were awakened by a tremendous cannonading all along the ramparts. The excitement was allayed by the information that the troops were practicing. Shops are mostly closed, and masters and employees are drilling. Lord Lyons warns English to leave the city while they may. *Place de La Concorde* is filled with cavalry and National Guard. A Prussian was discovered riding with his rifle from a secluded place at the palace. A large number of French are camped at Montmedy.

The Prussians to-day camped at *Croix aux Bois*, near the city. The Uhlans appeared at Nogent-sur-Seine, but retreated before the people. Many large Prussian siege guns are imbedded in the mud in the canal *de la Marne au Rhine*. The Germans attempted to transport guns by the canal. The *Ill* inch let out the water, and it is said that the consequence will be to delay the siege a considerable time.

The Forts at Ly—ns are completed and troops are reaching there daily. The guns are all in position.

Large sums of money have been subscribed throughout France for defence. Large forces have been organized in every department. A party of American volunteers passed Tours today for Paris. Conscripts to the regular army are drilling daily.

The Prussian advance appeared before Nogent sur-Seine, Courtel, Provency, Valgeo, Maunteni, Plessy and Lindon, small towns to the northeast and southeast of Paris. The National Guard is being organized throughout France. Trochu in an order to-day, says that 70,000 men are on the ramparts and that persevering efforts may save Paris. The city is unapproachable if its defenders are properly armed. The Counsellors of State have temporarily suspended their authority. Foreign diplomats are still in Paris. The Prussians are still swarming around Nancy.

The Duke has ceased to predict happy results from the pending peace negotiations.

LONDON, Sept. 15.—A dispatch, dated at Cassis, says, that the Emperor spends his mornings by making long excursions. His guard consists of one Prussian officer, two subalterns, one trumpeter and thirty-one men.

The Empress and Louis make constant excursions around Hastings; carriages are never used.

Paris Fashion Journals have suspended.—Mourning is generally worn in Paris and Berlin.

The ship wrecked on Goodwin Sounds, was the Elisha Beckwith.

The Pope has an explanatory letter from Victor Emanuel. A delay on Emanuel's part would lead to a proclamation of a Republic in every Italian city. Emanuel's soldiers would not have fought against a Republic, and the result would have been fatal to papacy. As it is Republicanism is so rampant, that it may yet prove irresistible.

AGRICULTURAL.

THE ADAPTATION OF SOUTHERN SOIL AND CLIMATE TO THE PRODUCTION OF MOST ARTICLES OF CONSUMPTION.

Without including Alaska, we have a territory of more than 2,500,000 square miles, or about one-twentieth of the habitable globe; wherein may be found every diversity of climate and soil suitable for the re production of any matter now grown in other parts of the earth—whether from the cold regions of the North, or the mild winters and perpetual summers of the South.

It is well known that such plants as form the basis of our imported products of the soil, are grown in climat s corresponding with those of our Southern States—as, between a portion of North Carolina and Key West in Florida. The latter State having every requisite (except the fostering care of Congress) for the successful cultivation of such exotic plants and as bear the greatest commercial value to the nation; not the least of which (as we have ago asserted) is coffee. The importation of that article alone, during the last ten years, amounted to more than *two hundred millions of dollars!* Institutions in the interest of agriculture should be established in most of the States, (conducted by *practical* horticulturists) whereby every valuable exotic plant, &c., brought to notice, may the more readily find a climate congenial to that of its nativity; thus avoiding the useless expense of *experimenting.*

Plants intended for field culture, but reared in the artificial air of the green house, never can be made available as a commercial or other value to the Nation. They require to be raised in the *free open air of a climate congenial to that of their nativity;* thereby affording them space for the absorption of the proper gases floating in the atmosphere, and which is needed for their nourishment.

During the reign of Charles III of Spain, in the last century, that monarch caused the "barren waste" of the Sierra Morena, to be colonized by poor German peasants, by grants of land free of rent for ten years; allowing each settler a cottage and bake-house, seed, farming implements, ten cows, six ass, pigs and poultry. These settlements are now the neatest and most flourishing villages in Spain.

Now inasmuch as our Government owns some eight million acres of land in tropical and semi-tropical Florida, why not make some provision for the cause of agriculture (whereby, *the whole country* may be benefitted) by inducing persons thoroughly acquainted with horticulture, to settle in those lands; not by land grants only but by furnishing them with the means for a beginning, so as to enable them to cultivate such plants as are suited for that climate, and having a commercial value?

W. B. G.

TWO PLOUGHINGS BEFORE SOWING WHEAT.—Where the wheat crop only is thought of, but especially where the intention is to lay down to grass for a few years, we think two ploughings should never be omitted. So soon as possible after oats is off, the first ploughing should be given in anticipation of the usual drought of the present month when it is sometimes almost impossible to plough at all. The first ploughing, lifts, pulverizes, aerates and meliorates the soil, giving the grass seed a much better chance to take; and in a grazing or dairying region where grass is the principal object, and the soil invested only once in a few years, no chance, in the rotation of cultivated crops, should be omitted to expose fresh surfaces to the action of the atmosphere. Top dressing of lime or other fertilizers, will afterwards suffice to keep up a good sod for many years.

Timothy is usually in this section sown in the fall with the wheat; and that it does not take well is often owing to a single ploughing being made, and the soil turned up in cakes and blocks, which, in a dry time, it is impossible to pulverize.—Let it not be forgotten, "that good tillage is manure."

Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and uninjurious to the eyes. All that is asked is, a fair and impartial trial.

Among the numerous testimonials received read the following:

PHILADELPHIA, March 15th, 1869.

The undersigned, having witnessed the experiments of Messrs. Hale & Co., with their Combination Burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a *safe and brilliant* illuminating agent. Its cheapness added to its other good qualities, should insure its introduction into every family in the country, where Kerosene Oil is used.

FOR THE IMPROVED

"UTLEY COTTON PRESS."

THE "UTLEY PRESS" So well known, and which gave entire satisfaction last season, can be obtained of me at Raleigh, or my Agents, Messrs. Mitchell, Allen, & Co., Newbern, with its improvements.

Price $175.00.

This invention of power, whereby all friction is overcome, its simplicity, economy and durability, astonishes all who see it; and the more so, that a power so simple should have remained so long unappropriated. The strain is wholly borne by the Bed Plate, Follower Block, and two 1¼ inch square iron bars, which is capable of sustaining a strain of 150,000 lbs. Thus giving much more strength than is required. WITH THIS PRESS TWO MEN CAN PACK A BALE OF COTTON WITH EASE IN EIGHT MINUTES WEIGHING FROM 400 to 550 lbs.

One man can do the work, only requiring long time.

It occupies a very small space, and can be so placed as to receive the lint direct from the Gin or Lint Room, as may be desired. Thus doing away with baskets, and frequent handling of the same.

It is light in weight, can be taken down or put up in 30 minutes and transported on a two Horse Wagon.

I believe it unequalled by any Press for power, convenience and durability.

Press complete—Depth Cotton Box 8 feet · Size Bale 4½ feet x26x28x56in; wt. Bale 400 to 550 lbs.

POLICIES VALUABLE IN LIFE, AS WELL AS AT DEATH!!

THE BROOKLYN LIFE, IS THE ONLY COMPANY IN AMERICA, WHICH GUARANTEES

DEFINITE CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

The BROOKLYN LIFE enjoys the highest reputation *for judgment of investment, economy of management, and skill and care in the selection of risks,*—upon which elements of administration the security of a Life Insurance Corporation *depends.*

The laws of New York compel Companies in that State to calculate the Cash value of their Policies, each and every year, and *a certain legal standard of reserve and accumulation must be held by the Companies to meet all their liabilities.*

Insurers in looking around for Companies in which to insure, should carefully seek for this important SAFEGUARD. It will be found in the BROOKLYN LIFE.

CASH ASSETS - - - - - - - - $500,000.

YOUNG, HEALTHY, VIGOROUS AND CONDUCTED BY A WISE, PRUDENT, AND ECONOMICAL BOARD OF DIRECTORS UPON A

NEW SYSTEM,

devised by its talented and distinguished Actuary CHAS. N. MORGAN, which must make it the leading Company in America, for persons in

MODERATE CIRCUMSTANCES,

and all who appreciate and demand the most UNQUESTIONABLE SECURITY, at rates in most cases, *considerably lower than* those of the leading Mutual Cash Companies.

The Excelsior issues Policies on all the plans of *Mutual* or *Stock* Companies, extending to policy holders, all their really desirable advantages. Its policies being *non-forfeiting*, the insured are privileged to *live and travel where they please* in any healthy part of the world, they participate in the profits, are allowed 30 days grace for payment of renewal of premium, a cash surrender value of policy, and a *privilege* which has never been offered by any other Company, that of converting Policies into

ANNUITY BONDS,

after the payment of 5 or more annual premiums.

☞ Hitherto, I have been restricted in the very popular Company which I had the honor to represent to *Stock rates* alone, which most of the *Agents*, and mixed Companies have adopted. This disadvantage, together with the multiplication of many new Companies, in this State who claimed to possess unusual charms, together with the extraordinary attractions presented by the Excelsior induced me to accept the management of that Company, whose plan combines all the popular features of other Companies, represented in this State, without an exception, and the additional privilege of converting policies, which the holder can not afford to keep up, or wishes to discontinue, because of the death of those for whose benefit the policy was secured, into an *Annuity Bond* which provides an income in cash *through life, or for a series of years as preferred.*

Circulars giving full explanations and any other information, will be cheerfully furnished.

The most liberal arrangements, will be made with first class solicitors, to push the EXCELSIOR forward in the Old North State, to that position which her low rates and most ample security entitle her to occupy.
